

## Company Aviation Safety Officers Course

Explorer Hotel – 4825 49th Avenue, Yellowknife  
April 26, 2015 0830 – 1630

### How You Will Benefit

Due to changes in operational requirements and the need for Safety Officers to have a greater level of knowledge associated with the introduction of Safety Management Systems in all areas of Canadian civil aviation, the Canadian Council for Aviation and Aerospace has created a workshop to address the specific needs of operators in today's dynamic environment. Organized for participants carrying out the responsibilities of the safety manager in a company, this workshop not only meets the requirements of CAR's 705.153, 302.505, Standard 723 and Standard 573.06(8) for safety manager training but will provide candidates with a deeper understanding of the various aspects of safety management and how to better develop, manage and assess effective safety management within their operations.

### Workshop Description

Content covered in the course includes:

- Flight safety philosophy
- Human Factors and the decision making process
- Accident prevention
- The role of the flight safety officer as advisor to senior management
- Risk management
- Accident/incident management
- The aviation safety survey
- Emergency response plan
- Incident investigations
- Safety Management Systems

Participants will benefit from a comprehensive overview of the role and responsibilities of the Safety Management Officer while also providing a thorough understanding of how to manage the various aspects of a Safety Management System.

### Intended Audience

- Operations managers
- Safety Officers
- Safety Managers

This workshop will be followed by a Webinar at a Date to be Determined in May, 2015 – Participants will be notified.

**Participants are invited to attend the HAC Spring Reception  
after the course from 5 – 7pm at the Explorer Hotel**

### **Instructor:** *Dave McIntosh Manager, Maintenance Training, Canadian North*

Dave is a licensed AME with 37 years industry experience. His career has focused mainly on Quality Assurance and Training. Dave's Quality Assurance experience ranges from performing audits as an auditor up to the position of Director Quality Assurance for various companies. His training experience ranges from a qualified college instructor & curriculum developer to Program Chair. Dave also has experience with implementing SMS and conducting incident investigation.
